

## BLACK BARJAN MARBLE TECHNICAL DATA SHEET

Density	2,670 kg/m3 167 lb/ft3
Water absorption	0.10%
Compressive Strength	860 kg/cm2 12,232 psi
ASTM C503	Approved

The Black Barjan marble is suitable for indoor and outdoor uses. Due to the natural characteristics of dark marbles, to avoid the sun light discoloration and weather conditions stains when used in outdoor areas, an enhanced stone color sealant must be applied to maintain the color and protect the marble.
